OFFICIAL PAPER OF THE CITY.

Janesville Daily Gazette.

VOLUME 8.

JANESVILLE, WIS., THURSDAY, JUNE 2, 1864.

NUMBER 81.

THE WEEKLY GAZETTE is now the largest paper published in the State, and having the largest circulation of any paper in Wisconsin. It contains all the news from all quarters, in a timely and interesting manner, and is a valuable source of information to all who read it. It is published every week, except on Sundays and holidays, and is sent to all subscribers in advance.

AFTERNOON DISPATCHES.

4 O'clock P. M.

FROM WASHINGTON.

WASHINGTON, June 2.—House committee on foreign affairs instructed the chairman to report a resolution reiterating a former resolution on the Monroe Doctrine, and maintaining the right of Congress to indicate the policy of the Government concerning encroachments of foreign powers on this continent.

FROM NORTH CAROLINA.

WASHINGTON, May 2.—Herald's Bacon Creek N. C. correspondence says on removing a monster torpedoes from a train at that station an explosion occurred, killing over 40 soldiers and blowing the signal tower and commissary building 500 feet into the air. The soldiers were mostly of New York regiments.

FROM THE SOUTH.

New York, June 2.—The steamer Fulcrum has arrived from Port Royal 20th. Gen. Foster had assumed command of the Department of the South. Hatch is appointed to the command of the District of Hilton Head.

A convention of loyalists at Jacksonville, Fla., had sent delegates to the Baltimore Convention.

Deserters from Savannah arrived at Port Royal on the 27th. They represent that Johnston had retreated before Sherman to within four miles of Atlanta, where the final battle will occur.

There was no further movement in Charleston harbor. Sumter was materially damaged by a night attack.

WOOLEN FACTORY,
Janesville, Wis.

The subscriber at the Factory known as the

"STONE MILLS"
on the Monterey Water Power, has two sets of "wheels" in full operation, and is now putting in the third set, making it the largest in the Northwest.

These wheels are as large as the other factories in the State.

Having large stocks of wool, and being able to supply all the wants of the trade, the subscriber is enabled to offer to the public a large assortment of goods at a low price.

Those who have used the cloth made at the "Stone Mills" will find it to be of the best quality, and of the most durable.

THE NEWS.

Nothing very new from Grant. His communications with the White House are now in full working order to which point large reinforcements and supplies have been sent. The only thing that now looks unpromising about the situation is, that Grant is so near the ground fought over by McClellan where he was looking for his "base." Lee crossed the Chickahominy on Monday night and it is not likely a general engagement has yet taken place. With reference to the strength of the army now in front of Richmond, it must suffice to remark, that it is considerably stronger than when it crossed the Rapidan.

The Richmond papers evidently begin to appreciate the military genius of Gen. Grant. They were constantly eulogizing "Little Mac" but could never see anything remarkably brilliant about the man who has always whipped them. They even go so far now as to express doubts about General Lee being able to expel this base intruder and his horde of vulgar auds from their sacred soil. If Lee can do it he has now a golden opportunity.

General Baldy Smith's forces were expected to join General Grant to-day.

From General Sherman the news is of the most favorable character. Sherman arrived at Dallas last Saturday and pushed on reinforcements to McPherson, who was to reach Atlanta by next Saturday unless heavy forces of rebels were met on the way. The advance was only 12 miles from Atlanta, where the greatest consternation is said to prevail. The rebels in that State have always flattered themselves that they were safe from war's alarms, but they now find the Yankee boys knocking at their very doors. Deserters represent that Johnston had retreated before Sherman to within four miles of Atlanta, where the final battle will occur.

Colonel Bailey.

We print in another column the letter of Admiral Porter to the Secretary of the Navy, detailing in what manner the Mississippi squadron under his command had been saved from destruction on Red River by the ingenuity and engineering skill of a Wisconsin lumberman. A careful perusal of the letter will repay the reader.

When this war broke out, Col. Bailey was residing at Kilbuck City, having been engaged, we believe, in that rather speculative and disastrous enterprise of building a dam across the Wisconsin river at that point. He found some difficulty in raising a squad of men for the war, and with some difficulty in getting a captain's commission. His future looked quite as unpromising as almost any other man's who entered the service in the same rank as himself. Many of his men were dissatisfied with him for captain, doubting his capacity, if not his courage; but like Gen. Grant, was the opportunity only that was waiting to prove the superior stuff of the volunteer. The war soon developed him. At Port Hudson he proved himself a hero. He was rapidly promoted, and now we see him saving a fleet worth millions of dollars to the Government, and saving the other millions which the fleet may be worth to the nation in time of peril—and that too, when Major General Banks and Rear Admiral Porter were at their wit's ends as to how they should save the fleet.

Money at the State Treasury's Office.

Mr. S. D. Hastings, our excellent State Treasurer, has issued a circular to the people in which he says that in future he shall be obliged to collect everything in payment of dues, that is other than United States and Wisconsin money, or drafts on New York, Chicago, Milwaukee or Madison, the drafts in all cases to be forwarded for collection before credit is given for the money.

Persons having occasion to send money to the State Treasurer hereafter will take due notice and govern themselves accordingly.

The Metropolitan General Conference, on Friday, adopted the report of the Committee on Lay Delegation, which after quieting the following vote on the subject, viz: "Of the Ministers there were 1,333; votes for, 3,000; against, of the male members, 28,884 for, 47,855 against; showing a majority against lay representation in the General Conference of 1,731 ministers, and of 13,971 male members." Says, "while we reaffirm our approval of lay representation in the General Conference whenever it shall be ascertained that the church desires it, we see no such declaration of the popular will as to justify us in taking action in relation to it. We are at all times ready to receive petitions and memorials from our people on this subject, and to consider them most respectfully."

One of the letters captured in the rebel mail lately intercepted in Maryland, was from an officer in Lee's army. It was written just before Grant commenced his advance, and says: "We all look forward to a short, sharp, sanguinary, but decisive campaign; now about to be opened." The result we do not doubt. Grant will meet the same fate that Seymour met in Florida. Sherman in Mississippi, and Banks in Louisiana. As for the Yankee negro troops, they will always meet the fate they have met whenever they have encountered our forces. "Extinction" is the war cry in charging negro troops.

Whiskey is quoted as unsteady. So are those who drink it to excess.

STATE NEWS.

H. D. Ryan, editor of the Appleton Crescent, has been succeeded by Sam Ryan, Jr., the former editor. Fires in the woods have been raging all around in the vicinity of Wausau, and in many cases have caught in barns, bridges, fences, &c., and done an immense amount of damage in Marathon county.—Information has been received that the Idaho boats comprising the fleet which left La Crosse last month, had been seized by Missouri authorities, at a point on the Missouri River, between Sioux City and Fort Randall, to be used for the transportation of troops upon the Indian expedition, the boats provided by the government for the purpose, having too great draught. Of course the seizure will be but temporary in its duration.—The Fond du Lac Reporter says that Geo. Soule, Dr. J. R. Cole, Dr. Lam, A. B. Boardman, Leslie Q. Oloott, and a number of prominent business men of that city, have been enlisted in Col. Billingshurst's regiment. Great effort is being made to raise a full company there. The men who have been mentioned above have set a good example, most decidedly.—Much damage to the pine timber in Adams county has been done lately by the fires that have been running west and southwest of that place. Green pine groves have been burned up with the same rapidity as would a field of dry stubble, the flames rising in many instances forty feet above the tops of the trees.—The Beaver Dam Citizen says: We are informed Mrs. Davenport visited her husband and his son, in the Milwaukee jail a few days ago. It is probably known by most of our citizens, that the son was among the drafted in our last call, and in order to exonerate the son from the draft, the father assisted by the son, misrepresented his age. Consequently they were committed to jail for perjury.—The Madison Journal learns from a soldier in Hurley Hospital, that the 10th Regiment is not with Sherman, but at last accounts was at Tyners, 10 miles south of Chascona guarding railroad, &c. It has 140 men for duty. A large number of its men and officers are prisoners in rebel hands.—On Thursday, the 12th inst., the dwelling house of Hiram Raymond, of Turtle, was destroyed by fire with the most valuable part of its contents. The origin of the fire is unknown. It occurred about 3 o'clock p. m. Loss \$1200 to \$1500, with no insurance.—Judge John A. Bryn, who recently died at Menasha, in this State, was the father-in-law of Governor Weller, of California, and of Mr. Edgerton, of Ohio, for several years a member of Congress from that State. The deceased was about the year 1860 editor of the Daily News, of Milwaukee.—Strawberries are selling in Milwaukee at 30 cents per quart.—Gen. S. W. Smith, editor of the Manitowish Tribune has enlisted for 100 days, and is going to the war with the 39th regiment.

New York Dry Goods Market.

From the United States Economist and Dry Goods.

New York, May 27.—The dry goods market is in a very excited condition. The sudden advance in cotton up to \$1.10 per lb has generally unsettled prices, and everything in the shape of cotton goods is advancing. Some of the commission merchants refuse to name a price for their goods, under the great uncertainty of values. On an average, cotton goods are now ten per cent. higher than a week ago, and yet the tendency is still upward. Manufacturers say that prices do not at all correspond to the price of raw material, and that if there is any prospect of cotton remaining low at present figures, they must have a further material advance on goods. When cotton was 50c. standard sheetings were selling at 44c. per yard, and subsequent rise in cotton is fully equal to the per yard on those goods, and yet the actual advance is only 5c. per yard. The same disparity exists in almost every description of goods. Printing cloths have perhaps advanced more, in proportion to the rise in raw material, than any other goods; and yet the rise is not equal to the extra cost by lb. per yard. On brown and bleached shirtings there is yet a very large margin for an advance before the price of goods corresponds with the price of cotton. This disparity has created a partial speculative demand for goods, which, however, meets with little encouragement from sellers. What may be the course of prices during the coming week it is difficult to estimate; the general impression is that if cotton remains at its present price, the advance next week will be greater than during the present.

ing comparatively plenty. Prices, however, are very strong, and the leading makes are held 1@2c higher.

Stripes, Ticks and Denims—There has been more disposition to buy these goods, owing to the advancing tendency of prices, but transactions have not been large. The leading brands are 1@2c higher than last week, and a further advance will very probably be made next week.

Cottonades—The demand continues steady; prices are higher for leading brands; the stock is reduced to a very light balance.

Ginghams—The demand continues steady for ginghams, and the production light. Prices are unsettled and advancing. Some of the manufacturers have withdrawn their goods from the market, preparatory to an advance. Package prices are too uncertain for quotation. We give the jobber's figures for this afternoon: Clinton 35c; Glasgow 32c; Lancaster 34c.

E. A. POLLARD, the assistant editor of the Richmond Examiner, whose capture on a blockade runner has already been mentioned, was permitted until a few days since, to range about Boston on parole.—Under orders from Washington, he has now been sent to Fort Lafayette. Pollard has been one of the bitterest and most brutal of the rebel editors, but had he been far more mild and candid, it was an outrage that he should be at large, while Northern correspondents are inmates of loathsome Southern prisons.

A CORRESPONDENT of the New York Times, with General Butler's army, says the excitement of skirmishing seems to become a mania with some of the soldiers. A man named Parker, of the 148th New York regiment, who was afflicted with this singular mania, got many yards in advance of the other skirmishers, when he saw a grayback, whose enthusiasm in the same gentle direction must have been equal to his own. Grayback saw Parker also. They simultaneously raised their pieces and fired, and both fell dead, shot in the forehead. Parker's body was brought away.

NOMINATION OF LINCOLN.—The Chicago Post, a Democratic paper, says: "There is no use in denying the fact that is now apparent to all, that Mr. Lincoln will be nominated by acclamation at the Baltimore Convention; the Convention really has no other business." This is a very natural deduction from the evident facts of the case.

Feeling it a special duty I owe to the Phoenix Insurance Company of Hartford, Conn., I take great pleasure in expressing my thankfulness for the promptness and liberality they have exhibited in honorably adjusting and paying my claim, for loss sustained by the total destruction of my brick store building and stock of merchandise contained therein in Harrodsburg Ky., a few days since, and upon which I had an insurance in the PHOENIX.

I am to-day in receipt of the amount of my claim \$9,500 sixty days before the same was due, according to the terms of the policy, which is satisfactory evidence in my mind that the PHOENIX is the Company to do business with.

THE WAR IN VIRGINIA.

Fort Monroe, May 31.—Gen. Grant's communication with the White House is complete, and all works well. Richmond papers of the 30th have been received here. They have changed their views with regard to the military ability of Gen. Grant, and say they have been underrating him. They say he is smarter than they had dreamed, and manifest some fear in regard to the safety of Lee, or rather as to his success in repelling the Yankee army.

A messenger from Gen. Grant reports that, on Tuesday morning our army had reached Mechanicsville with but little opposition. Gen. Sheridan had routed the enemy's cavalry at all points, and captured many prisoners.

Fr. Monroe, P. M., by mail 31st.—The steamer *Thos. Howell*, just arrived from Bermuda Hundred. All was quiet with Butler's forces. The steamer

BOARD OF ADJUTANT-GENERAL PORTER'S FLEET
The Adjutant-General of the Great West
Lieutenant-Colonel Bailey
MISSISSIPPI SQUADRON, FLAG-SHIP
BRACE, HALL, MOUTH RIVER
RIVER, May 16, 1864.

Sir: I have the honor to inform you that the vessels, lately, caught by low water above the falls at Alexandria, have been released from their unpleasant position. The water had fallen so low that I had no hope or expectation of getting the vessels out this season; and, as the army had made arrangements to evacuate the country, I saw nothing before me but the destruction of the best part of the Mississippi squadron.

There seems to have been an especial Providence looking out for us in providing a man equal to the emergency. Lieutenant-Colonel Bailey, acting engineer of the 19th army corps, proposed a plan of building a series of dams across the rocks at the falls, and raising the water high enough to let the vessels pass over. This proposition looked like madness, and the best engineers ridiculed it; but Col. Bailey was so sanguine of success that I requested General Banks to have it done, and he entered heartily in the work. Provisions were short, and forage was almost out, and the dam was promised to be finished in ten days or the army would have to leave us. I was doubtful about the time, but had no doubt about the ultimate success, if time would only permit. General Banks placed at the disposal of Colonel Bailey all the force he required, consisting of some three thousand men and two or three hundred wagons. All the neighboring steam mills were torn down for material—two or three regiments of Maine were set at work felling trees, and on the second day after my arrival in Alexandria from Grand Ecore, the work had fairly begun. Trees were falling with great rapidity, teams were moving in all directions, bringing in brick and stone; quarries were opened; flatboats were built to bring stone down from above, and every man seemed to be working with a vigor I have seldom seen equaled while perhaps not one in fifty believed in the success of the undertaking. These falls are about a mile in length, filled with rugged rock, over which the descent stage of water it seemed impossible to make a channel.

The work was commenced by running out from the left bank of the river a tree dam, made of the bodies of very large trees, brush, brick and stone, crossed with heavy timber, and strengthened in every way which ingenuity could devise. This was run out about 300 feet into the river; four large coal barges were then filled with brick and sunk at the end of it. From the right bank of the river, cribs filled with stone were built out to meet the barges, all of which were successfully accomplished, notwithstanding there was a current running of nine miles an hour, which threatened to sweep everything before it. It will take too much time to enter into details of this truly wonderful work; suffice it to say, that the dam had nearly reached completion in eight days' working time, and the water had risen sufficiently on the upper falls to allow the Fort Hindman, Osage, and Neesho to get down and be ready to pass the dam. In another day it would have been high enough to enable all the other vessels to pass the upper falls. Unfortunately, on the morning of the 9th inst., the pressure of water became so great that it swept away two of the stone barges which swung in below the dam on one side. Seeing this unfortunate accident, I jumped on a horse and rode up to where the upper vessels were anchored, and ordered the Lexington to pass the upper falls if possible, and immediately attempt to go through the dam. I thought I might be able to save the four vessels below, not knowing whether the persons employed on the work would ever have the heart to renew the enterprise.

The Lexington succeeded in getting over the upper falls just in time, the water rapidly falling as she was passing over. She then steered directly for the opening in the dam, through which the water was rushing so furiously that it seemed as if nothing but destruction awaited her. Thousands of boating hearts looked on, anxious for the result. The silence was so great as the Lexington approached the dam that a pin might almost have been heard to fall. She entered the gap with a full head of steam on, pitched down the roaring torrent, made two or three spasmodic rolls, hung for a moment on the rocks below, when she swept into deep water by the current, and rounded to safely into the bank.

Thirty thousand voices rose in one deafening cheer, and universal joy seemed to pervade the face of every man present. The Neesho followed next—all her batteries batted down, and every precaution taken against accident. She did not fare as well as the Lexington, her pilot having become frightened as he approached the abyss, and stopped her engine, when I particularly ordered a full head of steam to be carried. The result was that for a moment her hull disappeared from sight under the water. Every one thought she was lost. She rose, however, swept along over the rocks with the current, and fortunately escaped with only one hole in her bottom, which was stopped in the course of an hour. The Hindman and Osage both came through beautifully, without touching a thing, and I thought if I was not enough to get my large vessels over the falls, my fleet once more would do service on the Mississippi. The accident to Col. Bailey, only induced him to renew his exertions, after he had seen the success of getting four vessels through. The noble-hearted soldiers, seeing their labor of the last eight days, swept away in a moment, cheerfully went to work to repair damages, being confident now that all the gunboats would be finally brought over. The men had been working for eight days and nights, up to their necks in water, in the broiling sun, cutting trees and wheeling bricks, and nothing but good humor prevailed among them. On the whole, it was very fortunate. The dam was carried away, as the two barges that were swept away from the centre, swung around against the rocks on the left, and made a fine cushion for the vessels, and prevented them, as it afterwards appeared, from running on certain destruction.

The force of the water and the current being too great to construct a continuous dam of six hundred feet across the river in so short a time, Colonel Bailey determined to leave a gap of fifty-five feet in the dam, and build a series of wing dams on the upper falls. This was accomplished in three days' time, and on the 11th inst., the Mound City, the Carondelet, and Pittsburg came over the upper falls, a good deal of labor having been expended in hauling them through the channel, being very crooked—scarcely big enough for them. Next day, the Cairo, Louisville, Chillicothe, and two tugs also succeeded in crossing the upper falls.

Immediately afterward, the Mound City, Carondelet, and Pittsburg, started in succession to pass the dam, all their batteries batted down, and every precaution taken to prevent accident.

The passage of these vessels was most beautiful sight, only to be realized, when seen. They passed over without an accident, except the unshipping of one or two rudders. This was witnessed by all the

troops, and the vessels were heartily cheered when they passed over. Next morning, at ten o'clock, the Louisville, Chillicothe, Ozark, and two tugs, passed over without any accident, except the loss of a man who was swept off the deck of one of the tugs. By three o'clock that afternoon, the vessels were all loaded, ammunition replaced, and all steamed down the river with the convoy of transports in company. A good deal of difficulty was anticipated in getting over the bars in the lower Red River—depth of water reported only five feet, gunboats were drawing six feet. Providentially, we had a rise from the back-water of the Mississippi—that river being very high at that time—the back-water extending to Alexandria, one hundred and fifty miles distant, enabling us to pass all the bars and obstructions with safety. Words are inadequate to express the admiration I feel for the ability of Lieutenant-Colonel Bailey. This is without doubt the best engineering feat ever performed. Under the best circumstances, a private company would not have completed this work under one year, and to an ordinary mind the whole thing would have appeared an entire impossibility. Leaving out his ability as an engineer—the credit he has conferred upon the country—he has saved the Union a valuable fleet worth nearly two millions of dollars; more, he has deprived the enemy of a triumph which would have emboldened them to carry on this war a year or two longer, for the intended departure of the army was a fixed fact, and there was nothing left for me to do in case that event occurred but to destroy every part of the vessels so that the rebels could make nothing of them. The highest honors the Government can bestow on Col. Bailey can never repay him for the service he has rendered the country.

To Gen. Banks, personally, I am much indebted for the happy manner in which he has forwarded this enterprise, giving it his whole attention night and day; scarcely sleeping while the work was going on; attending personally to see that all the requirements of Col. Bailey were complied with on the instant.

I do not believe there ever was a case where such difficulties were overcome in such a short space of time, and without any preparation.

This Mississippi squadron will never forget the obligation it is under to Lieutenant-Colonel Bailey, Acting Military Engineer of the 19th Army Corps.

I have the honor to be, very respectfully, your obedient servant,
DAVID D. PORTER, Rear Admiral.
Hon. Gideon Welles, Secretary of the Navy, Washington, D. C.

Janesville Daily Gazette.
THURSDAY, JUNE 2, 1864.

If You would know why it is that the southern population, all ages included, march from destitute homes in rage and poverty to the battle-field, and there fight to the death for southern independence, you may find the reason in our abolition proclamations, in our confiscation acts and in the lawless and unchristian oppressions of the people proposed and intended by this federal administration.—*Minneapolis News.*

It is upon such stuff the Wisconsin copperheads are regaled. If one could believe the *News* the southern people did not march to the battle field to fight to the death for their independence until after the abolition proclamations were issued and the confiscation acts passed. The memory of the people is not quite as short as that of the editor of the *News*. They remember quite distinctly that this war had assumed very formidable dimensions and a somewhat threatening aspect long before any abolition proclamation or acts of confiscation was ever issued or thought of, and they also have a vivid recollection of a certain letter written by Mr. Lincoln in reply to Horace Greeley who had urged upon the President the necessity of issuing a proclamation of emancipation, in which Hon. Abe assured him that he would not issue such a proclamation until all other means to end the rebellion had failed; and everybody knows, except the editor of the *News*, that the President did wait until some of us thought the case was almost beyond the hope of surgery, before he came to time. He frankly told Mr. Greeley that if he could save slavery and the Union he would do that; or if he could save a part of slavery and the Union he would do that. Indeed, the President's tender solicitude and fatherly care for the peculiar institution and his determination to preserve it if possible, in accordance with what he deemed the sanctity of his oath, was carried to such an extreme, that some of his warmest and most generous supporters became alienated from him, and are to-day, next to the *News* and the madmen it represents, his bitterest and most persistent enemies. And not only did the President exercise this long suffering and forbearance himself, but in military districts where martial law had been proclaimed and his generals had issued proclamations of emancipation, he immediately annulled them, against the earnest protestations of his best friends. There is not on record another such instance of fatherly mildness, christian charity and extreme forbearance as Abraham Lincoln has always exercised towards the South. No where in the whole range of history do we find a ruler so uniformly gentle and forgiving when dealing with a perverse and rebellious set of subjects whose sole and only unforfeited right was to second the seceding and expiate their crimes with their lives. He has exhausted every conceivable means under heaven to win them back to loyalty and peace, but in vain. And yet we are coolly told that this statesmanship would have prevented all this terrible bloodshed; and if the rebels, who have put a half million of men in battle array to destroy the government, could be treated in what the *News* styles a "christian" and "lawful" manner, they would lay down their arms and disperse!

It is no wonder the genuine Wisconsin copperhead is so bitter and malignant in his hatred of this Administration and its every act to crush out this hideous rebellion, when his head is filled with such groundless and malicious falsehoods, as that contained directly and by inference in the paragraph from the leading copperhead organ of the State, quoted above:

NATIVE WINES.—Scared History abounds in allusions to wine, and as there are thirteen distinct Hebrew terms used in the Bible to distinguish varieties of different kinds, condition and ages, it is evident that the "ancient people" were no less particular in the matter of "brands" than are the people of the present day. The Greek and Romans had two hundred varieties, of which the "Falernian" was the choicest; and the products of particular vineyards were as highly esteemed in Athens and Rome, as the Cigquet and Metternich wines now are in London and Paris. The wines of antiquity were often villainously adulterated. The art of "doctoring" the juice of the grape is so far from being a modern invention that it dates back to the siege of Troy. Helen, the fair and frail, is said to have learned the trick in Egypt, and to have practised it for the sake of increasing the exhilarating properties of the wine she gave to the defenders of the city after a hard battle with the Greeks.

The safest and best of all exhilarants is good wine. Many physicians and matrons suppose we must have foreign wine. There is one hundred times the quantity of wines exported from France, Spain and Germany, than can be manufactured there from the quantity of grapes. There is but one safeguard, and that is to use our pure native wines. Imported wines now pay a heavy duty, and a bottle of real Port or Sherry can only be obtained at a high price. There is no duty or tax on native wines—therefore, in the name of purity and economy, let us have our own native wines.

Messrs. Bennett, Pieters & Co., of Chicago, always have an assorted stock of fine imported wines in U. S. bonded warehouses, from the most reliable houses of France, Spain and Germany; also brandies, gums, &c., and have for the past three years been making extensive preparations for the manufacture of home-made wines. They have the most extensive arrangements with fruit growers, and in the proper season they gather strawberries, cherries, peaches, blackberries, raspberries &c. &c., to an enormous amount. Their strawberry, cherry, blackberry, raspberry and muscat wines far excel many of the imported wines, both in purity and exhilarating effects. Many of these home-made wines are being largely adulterated, and many a bottle of cherry juice in it. Buy none but those with the unmistakable label of Bennett, Pieters & Co. These gentlemen are men of high respectability, and guarantee every article from their house, pure and unadulterated.

ROCK CO., WISCONSIN, LANDS FOR SALE BY AUCTION. Will be sold by auction, on Thursday the 23d of June Next, in the city of Janesville, Rock county, Wisconsin, thirty-eight hundred and forty (3840) acres of the best agricultural lands in the State. They are situated about ten miles from Janesville, and adjoining the village of Footville, with the Illinois & Madison Railroad running through them, and the Milwaukee & Southern Wisconsin Railroad on their border, and are composed of about an equal quantity of heavy "grove" timber and prairie. They were selected for their present owners for investment, nearly thirty years ago, as the best lands, in all respects, in Rock county, and this county, it is well known, is the richest in Wisconsin. They will be sold in lots of 40, 80, 120, 160, 200, 240, 320, 400, 480, 560, 640, 720, 800, 880, 960, 1120, 1280, 1440, 1600, 1760, 1920, 2080, 2240, 2400, 2560, 2720, 2880, 3040, 3200, 3360, 3520, 3680, 3840, 4000, 4160, 4320, 4480, 4640, 4800, 4960, 5120, 5280, 5440, 5600, 5760, 5920, 6080, 6240, 6400, 6560, 6720, 6880, 7040, 7200, 7360, 7520, 7680, 7840, 8000, 8160, 8320, 8480, 8640, 8800, 8960, 9120, 9280, 9440, 9600, 9760, 9920, 10080, 10240, 10400, 10560, 10720, 10880, 11040, 11200, 11360, 11520, 11680, 11840, 12000, 12160, 12320, 12480, 12640, 12800, 12960, 13120, 13280, 13440, 13600, 13760, 13920, 14080, 14240, 14400, 14560, 14720, 14880, 15040, 15200, 15360, 15520, 15680, 15840, 16000, 16160, 16320, 16480, 16640, 16800, 16960, 17120, 17280, 17440, 17600, 17760, 17920, 18080, 18240, 18400, 18560, 18720, 18880, 19040, 19200, 19360, 19520, 19680, 19840, 20000, 20160, 20320, 20480, 20640, 20800, 20960, 21120, 21280, 21440, 21600, 21760, 21920, 22080, 22240, 22400, 22560, 22720, 22880, 23040, 23200, 23360, 23520, 23680, 23840, 24000, 24160, 24320, 24480, 24640, 24800, 24960, 25120, 25280, 25440, 25600, 25760, 25920, 26080, 26240, 26400, 26560, 26720, 26880, 27040, 27200, 27360, 27520, 27680, 27840, 28000, 28160, 28320, 28480, 28640, 28800, 28960, 29120, 29280, 29440, 29600, 29760, 29920, 30080, 30240, 30400, 30560, 30720, 30880, 31040, 31200, 31360, 31520, 31680, 31840, 32000, 32160, 32320, 32480, 32640, 32800, 32960, 33120, 33280, 33440, 33600, 33760, 33920, 34080, 34240, 34400, 34560, 34720, 34880, 35040, 35200, 35360, 35520, 35680, 35840, 36000, 36160, 36320, 36480, 36640, 36800, 36960, 37120, 37280, 37440, 37600, 37760, 37920, 38080, 38240, 38400, 38560, 38720, 38880, 39040, 39200, 39360, 39520, 39680, 39840, 40000, 40160, 40320, 40480, 40640, 40800, 40960, 41120, 41280, 41440, 41600, 41760, 41920, 42080, 42240, 42400, 42560, 42720, 42880, 43040, 43200, 43360, 43520, 43680, 43840, 44000, 44160, 44320, 44480, 44640, 44800, 44960, 45120, 45280, 45440, 45600, 45760, 45920, 46080, 46240, 46400, 46560, 46720, 46880, 47040, 47200, 47360, 47520, 47680, 47840, 48000, 48160, 48320, 48480, 48640, 48800, 48960, 49120, 49280, 49440, 49600, 49760, 49920, 50080, 50240, 50400, 50560, 50720, 50880, 51040, 51200, 51360, 51520, 51680, 51840, 52000, 52160, 52320, 52480, 52640, 52800, 52960, 53120, 53280, 53440, 53600, 53760, 53920, 54080, 54240, 54400, 54560, 54720, 54880, 55040, 55200, 55360, 55520, 55680, 55840, 56000, 56160, 56320, 56480, 56640, 56800, 56960, 57120, 57280, 57440, 57600, 57760, 57920, 58080, 58240, 58400, 58560, 58720, 58880, 59040, 59200, 59360, 59520, 59680, 59840, 60000, 60160, 60320, 60480, 60640, 60800, 60960, 61120, 61280, 61440, 61600, 61760, 61920, 62080, 62240, 62400, 62560, 62720, 62880, 63040, 63200, 63360, 63520, 63680, 63840, 64000, 64160, 64320, 64480, 64640, 64800, 64960, 65120, 65280, 65440, 65600, 65760, 65920, 66080, 66240, 66400, 66560, 66720, 66880, 67040, 67200, 67360, 67520, 67680, 67840, 68000, 68160, 68320, 68480, 68640, 68800, 68960, 69120, 69280, 69440, 69600, 69760, 69920, 70080, 70240, 70400, 70560, 70720, 70880, 71040, 71200, 71360, 71520, 71680, 71840, 72000, 72160, 72320, 72480, 72640, 72800, 72960, 73120, 73280, 73440, 73600, 73760, 73920, 74080, 74240, 74400, 74560, 74720, 74880, 75040, 75200, 75360, 75520, 75680, 75840, 76000, 76160, 76320, 76480, 76640, 76800, 76960, 77120, 77280, 77440, 77600, 77760, 77920, 78080, 78240, 78400, 78560, 78720, 78880, 79040, 79200, 79360, 79520, 79680, 79840, 80000, 80160, 80320, 80480, 80640, 80800, 80960, 81120, 81280, 81440, 81600, 81760, 81920, 82080, 82240, 82400, 82560, 82720, 82880, 83040, 83200, 83360, 83520, 83680, 83840, 84000, 84160, 84320, 84480, 84640, 84800, 84960, 85120, 85280, 85440, 85600, 85760, 85920, 86080, 86240, 86400, 86560, 86720, 86880, 87040, 87200, 87360, 87520, 87680, 87840, 88000, 88160, 88320, 88480, 88640, 88800, 88960, 89120, 89280, 89440, 89600, 89760, 89920, 90080, 90240, 90400, 90560, 90720, 90880, 91040, 91200, 91360, 91520, 91680, 91840, 92000, 92160, 92320, 92480, 92640, 92800, 92960, 93120, 93280, 93440, 93600, 93760, 93920, 94080, 94240, 94400, 94560, 94720, 94880, 95040, 95200, 95360, 95520, 95680, 95840, 96000, 96160, 96320, 96480, 96640, 96800, 96960, 97120, 97280, 97440, 97600, 97760, 97920, 98080, 98240, 98400, 98560, 98720, 98880, 99040, 99200, 99360, 99520, 99680, 99840, 100000. 454my24dwt

SHORTEST NOTICE!!

FARMERS, TAKE NOTICE!

One hundred of those Reapers known as the

Cheap, or Webber Reaper!

Nothing but the increase of nearly double in price over other years of all materials put in Reapers, we are going to sell for 1891 at about the same prices as before. Our price at the shop are \$110 each for single Reapers, for Reapers and Mowers \$110. We are making fifty Mowers, which will be warranted to do good work. They will be made of steel bars of the best quality, except the hinges.

These Reapers alone can have Mowers the next year at the same price, as the difference between the Reapers and Mowers.

We do not deem it necessary to extend our Reapers, for it is already known to be the only two-horse Reaper in use. Notwithstanding a great many are used with two horses, they ought to use three or four, and some of them six, to be as easy to the horse as ours are, to two ordinary horses.

Please send in your orders early to be sure of a machine, as positively only one hundred of them will be built, and we will warrant each and every machine to

Work Well in all kinds of Grain!

The Reels will be different from last year. They will be the over hanging reel, and have six flats instead of four keeping the reel, holding the grain to the sickle steady.

They will be shipped to any depot in Wisconsin or Illinois. Ten per cent. will be added if sold on time. One half the lot of September, 1891, the balance the 1st of September, 1892.

These Reaping machines will confer a favor by giving this machine publicity in their respective neighborhoods. Charges light as the cost of material will admit. We will prepare to repair. Work solicited. All orders should be directed to

SHORTEST NOTICE!!

FARMERS, TAKE NOTICE! The undersigned are having made at Joliet, Wis., one hundred of these Reapers known as the

Cheap, or Webber Reaper! Notwithstanding the increase of nearly double in price over other years of all materials put in Joliet, we are going to sell for 1884 at about the same prices as before.

Our prices at the shop are \$110 each for single Reapers, for Reapers and Mowers \$140. We are making fifty Reapers, which will be warranted to do good work. They will be made of steel bars of the highest quality, except the hinges.

These Reapers also can have Mowers the next year or thereafter for the same price, as the difference between crop and mow.

We do not think it necessary to extend our Reapers for it is already known to be the only two-bladed Reaper in use. Notwithstanding a great many are used with one blade, they ought to be two blades or four, and of them six, to be in use to the house on one side, and one on the other.

Please send your orders early to be sure of a machine, as positively only one hundred of them will be built, and we will warrant each and every machine to

Work Well in all Kinds of Grain! The Reels will be different from last year. They will be the over hanging reel, and have six butts instead of four keeping the reel, holding the grain to the sickle.

They will be shipped to any depot in Wisconsin or Illinois. Two per cent. will be added to the price of the machine, if ordered before the 1st of September, 1884, the balance the 1st of September, 1885.

These Reapers will be a great favor by giving this machine publicity in their respective neighborhoods. When material gets to its usual stage we intend to make it a money losing machine, and we have done it but for the unprecedented high prices of everything to contract machines with.

The Reaper Shop at Afton! will attend strictly to the repairing of the Webber Reapers. None other wanted. We are prepared to change from chain to belt, put on gears wheels upon short notice. Men will be on hand to repair promptly. Charges light to the cost of material will admit. We shall manufacture more at that place, consequently we will be prepared to repair. Worked out. All orders should be directed to

SHEET MUSIC, including a very great variety of Patriotic Songs. We keep a large assortment of

Musical Merchandise and Instruction Books. GOTTSCHALK ON KNABE. (Translated into the French.)

After having played on the Piano of Messrs. Knab & Co., it is impossible not to bear testimony to their quality, which have acquired for them the highest reputation, which they enjoy. The Piano of their manufacture, on which I have played, are exceedingly remarkable for their quality. The tone is powerful without harshness, and the upper register is clear and harmoniously mellow. (Christophorus) and I do not hesitate to express in regard to these instruments, my entire satisfaction, and the opinion that they are equal to any of the best manufactured in Europe or this country by the most celebrated makers.

Signed, L. M. GOTTSCHALK, Jan. 20th, 1884. D. D. Wilson, Janesville, Wis.
